NEGRO OUTRAGE MILLS.

Harrison Orders it to Grind.

The telegraph gives us account of a large delegation of colored people who called upon President Harrison last week, for the purpose of representing to the President the many outrages, fiendish, diabolical and otherwise, committed upon the colored people in the South. The President is reported to have acceded to their long and patient intercession, and to have ordered the military and naval forces to their condition, and expressing horror at the recital of outrages to which they were subjected in the South, but confessed his inability under the constitution and the laws to do anything for their relief or protection. He urged the delegates present to go to work at once and collect all the details of the outrages and most diabolical of the outrages, and he promised on his part to call the attention of the people of the United States to them.

This is the year of the Presidential campaign, and not inconsiderable that President Harrison promises that the old work on Southern outrages will be put on a grand scale, with full force and power until after the election in November!

N. P. Moss for Judge.

In an authorized list of candidates for Circuit Judge will be found the name of N. P. Moss, of Hickman county. He needs no introduction to the readers of the Courier. As a lawyer he stands in the front rank, and as a gentleman of honor, integrity, firmness and decision of character he is the peer of any man in Kentucky. The Courier would say more in commendation and favor, but it is not needed.

An Important Alliance Meeting.

A meeting of the Alliance Party, held in the States of Virginia, North and South Carolina, Florida, Georgia, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, Kentucky, Oklahoma and Tennessee, is called to meet in Birmingham, Ala., on the 22nd of May. The call is made by the National Executive Board, and the cause assigned is the differences and dissensions which threaten the existence of the Alliance Party in the States named. The St. Louis platform has been carried into the ranks of the Order of United Workmen, and the Alliance Party, which was organized in this meeting, the Northern and Western States are excluded. The body of membership in the Southern States are irreconcilably opposed to the Alliance Party, and demand that the South must desert the Democratic party.

Joe Blackburn's Silver Party.

At a meeting of the National Silver Committee, last week, in Washington, twenty States were represented, and it is said that the committee was organized in the event that both the Republican and Democratic National Conventions failed to insert a free silver plank that a new party, the Silver party, will be formed, and nominate a Presidential ticket, and that the Republican Senators, Teller, Wolcott, and others of that party, and the Democratic Senators, Daniels, Blackburn and others, will support the Silver party. The Courier knows nothing of the first named, but when Joe Blackburn, of the Democratic party, we expect to see the Mississippi run up stream, the Republican tariff baron come out, the white man make a mistake, and the silver party will be the party of the future.

Negro Race Dying Out.

The magazine writers, who are reported to have thoroughly studied the subject, have recently argued upon the cause of the negro race in the United States is doomed to the same fate as the Indians, that is, to gradual extinction. They assert that the Federal census shows that the mortality of the negro is fully 75 per cent. more than that of the white man; that the average age of the negro is far below that of the white man; and that negro women are dying much more rapidly than the negro men. The cause assigned for this is not the negro's native condition, but a body of people they do not take sufficient care of themselves and their families, cleanliness, and avoiding exposure; and also they have arrayed themselves as a race against the dominant white race, and thus produced an early death.

Judges' Club. It is thought and W. S. Bishop are prospective candidates for Circuit Judge in the District of which the county of McCracken is a part.

A Not to Crack.

The Colfax Telephone says: Judge Robertson secured a telling point last Monday while discussing the sub-treasury scheme. It is a question which suggests itself to all practical business men who should to purchase a tract of land, a house, a horse, or any species of property. The question is simply to find out who has the article desired, and wishes to sell. Then the question arises as to how, and then whether the word be purchased has the means to pay for it. To illustrate: the sub-treasury scheme would have the government to issue all the railroads, telephone and telegraph lines, etc. The first thing would be to find out who would sell, then the price, and then the government must feel down in its pockets to see if it has the money, and where, to pay for it. The first cost of that species of property in the United States. This is the government's dilemma: where would it come from? This would lead to more taxes on the people, and that means ruin. It would lead to more taxes on the people, and that means ruin. It would lead to more taxes on the people, and that means ruin.
